

***Making Training
an enjoyable experience***

Autodesk REVIT software has become synonymous with BIM (building information modelling) and with increasing numbers of governmental and commercial project tenders stipulating BIM methodology as a pre-requisite, now is the time to start learning what REVIT has to offer.

In This Revit Core Course and training, participants will learn and apply the tools offered by Autodesk REVIT, the premier parametric BIM design software of Autodesk. Revit is renowned for its dynamic design tools that allow its users to carry out an architecture, mechanical or MEP project within a flexible collaborative environment.

Revit Core

Course Code: ED20B09

Duration: 20 hours

Start Date: 06/10/2020

Audience Profile: This Revit Core Course and training, is for all levels of users. The course is purposefully designed to be a hands-on duplication of the real-life experience of the trainers. So, this will allow first-time users to save significant time in the inherent trial and error process of learning new design software. On the other hand, more advanced users can reinforce their capabilities. At the same time, they can compare their design practices and processes to the methods used by the designers of this course.

Course Language: Greek

Course Notes: English

At Course Completion

Upon completion participants will gain knowledge of the essential tools in REVIT and will be able to apply their knowledge in order to create 3D models.

Prerequisites: Good knowledge of Windows

Delivering training since 1996
